

## Facility Cleaning, Disinfection Audits and Remediation Programs

Allynt Solutions is a consultant firm specializing in creating clean, safe, and healthy interior environments in commercial buildings. By establishing a baseline analysis of existing conditions in any type of commercial building, Allynt audits all processes, products and practices related to cleaning and disinfecting and then designs, builds, educates, trains, and provides on-going monitoring services.

## OUR AREAS OF EXPERTISE

### Cleaning & Disinfection Audits

Utilizing data-driven analytical Assessment tools, Allynt Solutions assesses the current performance of a facility. We can compare that performance to industry standards and government mandated requirements / guidelines. This baseline is then used to drive performance improvements, infection prevention and/or regulatory compliance.

### Design & Build Improvement Programs

The key to the improvements in the cleanliness and healthiness of any public facility is the development and implementation of a Quality Master Cleaning Plan. The plan will define cleaning, sanitizing, and disinfecting requirements, measure performance, and make a commitment to continuous

### Education & Training

Quality cleaning and maintenance performance is safe, healthy, and sustainable requiring the necessary education and training protocols. Allynt Solutions will implement and develop the performance metrics to meet existing legal and regulatory obligations.

### Ongoing Monitoring Services

Allynt Solutions provides ongoing monitoring to ensure all implemented programs are established, driving compliance, and delivering the desired results.
