BRITA

E Classic Water Filter Pitcher Removes copper, mercury and cadmium that can be found in tap water. It also decreases the taste of zinc and both the taste and odor of chlorine. Track when you need to replace the water filter with the sticker filter indicator. The compact 6-cup size maximizes space in a kitchen, breakroom or conference room. One water filter can replace up to 300 standard 16.9-ounce water bottles.

G On Tap Water Faucet Filter System Reduces chlorine taste and odor, lead, and asbestos impurities that can be found in tap water. It also decreases cryptosporidium and giardia cysts when present in tap water. One Brita® water filter can filter up to 100 gallons of tap water, replacing up to 750 standard 16.9-ounce water bottles. An electronic filter life indicator tells you when to replace the water filter. Choose filtered or unfiltered water or unfiltered spray by simply flipping a switch. This space-saving system attaches easily to any standard faucet. It's perfect for a school or office.
