

### **Maintenance Solutions**

# Hot Shot

## Heavy Duty No Rinse Speed Stripper

#### For Use On:

Vinyl Tile Vinyl Asbestos Asphalt Tile\* Linoleum Rubber Tile\* Concrete Flagstone

Terrazzo Ceramic Tile

#### DESCRIPTION

The most effective floor finish emulsifier ever developed. Will solubilize aged and built-up finishes almost instantly. May be used as a no-scrub stripper or with a conventional floor machine and pad depending on the concentration of the product and the condition of the floor.

#### DIRECTIONS

1. Sweep or dust mop the floor to remove any debris.

2. Dilute Low Odor Floor Finish Remover from 1:2 to 1:11 (43oz. to 11oz./gal) with **cold** or **warm** water, depending on age and build-up of finish. Do not use hot water.

3. Apply liberally with a mop to an area small enough so as not to allow the product to dry. Be sure to completely cover floor to baseboards.

4. After 3 to 5 minutes, agitate the wet section with a mop or machine scrub. Pick up solution using a mop, wet vac or automatic scrubber.

5. Rinse thoroughly with clear water to remove residue as necessary.

NOTE: Asphalt tile and rubber flooring could be affected by stripping solutions in high concentrations with hot water. Always test floor before proceeding.

#### PRODUCT SPECIFICATIONS

Active Ingredients: Color: Odor: pH: Viscosity: Foam: Abrasives: Phosphate Content: Solubility: 50.0 ± 0.5% Clear Sassafras 13.0 - 13.5 Water thin Low None None Complete with water Emulsification: Detergency: Rinsability: Flash Point: Biodegradability: Storage/Stability: Weight per Gallon: Freeze / Thaw Stability:

Excellent Excellent 145°F (TCC) Complete 2 years 8.27 lbs./gal. Keep from freezing
