

Maintenance Solutions

Neutral Disinfectant & Detergent

DILUTION: 1:64 2 OUNCES PER GALLON OF WATER (660 ppm quat)

A multi-purpose, neutral pH, germicidal detergent and deodorant effective in hard water up to 400 ppm (calculated as CaCO₃) in the presence of a moderate amount of soil (5% organic sponge or coarse spray. Make sure to wet all surfaces completely. Let air dry. Repeat serum) according to the AOAC Use-dilution Test. Disinfects, cleans and deodorizes in one application weekly or when growth reappears. labor-saving step

industrial institutions, office buildings, veterinary clinics, animal life science laboratories, VIRUS) ON PRECLEANED, ENVIRONMENTAL SURFACES / OBJECTS PREVIOUSLY zoos, pet shops, airports, kennels, hotels, motels, breeding establishments, grooming SOILED WITH BLOOD / BODY FLUIDS in health care settings or other settings in which establishments and households.

walls, (non-medical) metal surfaces, (non-medical) stainless steel surfaces, glazed porcelain, associated with the potential for transmission of Human Immunodeficiency Virus Type I (HIVplastic surfaces (such as polypropylene, polystyrene, etc.).

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This product is not for use on medical device surfaces.

DISINFECTION / CLEANING / DEODORIZING DIRECTIONS: Remove heavy soil deposits from surface, then thoroughly wet surface with a use-solution of 2 ounces of the concentrate per gallon of water. The use-solution can be applied with a cloth, mop, sponge, or coarse spray or by soaking. For sprayer applications, use a coarse spray device. Spray 6-8 inches from the surface, rub with a brush, cloth or sponge. Do not breathe spray. Let solution remain on surface for a minimum of 10 minutes. Rinse or allow to air dry. Rinsing of floors is not necessary unless they are to be waxed or polished.

Food contact surfaces must be thoroughly rinsed with potable water. This product must not be used to clean the following food contact surfaces: utensils, glassware and dishes

BACTERICIDAL STABILITY OF USE-DILUTION: Tests confirm that this product, when diluted in 400 ppm hard water, remains effective against Pseudomonas aeruginosa, Staphylococcus aureus and Salmonella choleraesuis for up to 3 months when stored in a sealed container such as a spray bottle. If product becomes visibly dirty or contaminated, the use-dilution must be discarded and fresh product prepared. Always use clean, properly labeled containers when diluting this product. Bactericidal stability of the use-dilution does not apply to open containers such as buckets or pails.

TOILET BOWLS: Swab bowl with brush to remove heavy soil prior to cleaning or disinfecting. Clean by applying diluted solution around the bowl and up under the rim. Stubborn stains may require brushing. To disinfect, first preclean to remove heavy soil, then remove or expel over the inner trap the residual bowl water. Pour in three ounces of the diluted solution. Swab the bowl completely using a scrub brush or mop, making sure to get under rim. Let stand for 10 minutes or overnight, then flush.

FUNGICIDAL DIRECTIONS:

For use in areas such as locker rooms, dressing rooms, shower and bath areas and exercise facilities follow disinfection directions.

MILDEWSTATIC INSTRUCTIONS: Will effectively control the growth of mold and mildew, plus the odors caused by them when applied to hard, nonporous surfaces such as walls, floors and table tops. Apply use-solution of 2 ounces per gallon of water) with a cloth, mop,

Recommended for use in hospitals, nursing homes, schools, colleges, commercial and *KILLS HIV-1 (AIDS VIRUS) AND HBV (HEPATITIS B VIRUS) AND HCV (HEPATITIS C there is an expected likelihood of soiling of inanimate surfaces/objects with blood / body Disinfects, cleans, and deodorizes the following hard, nonporous, inanimate surfaces: floors, fluids, and in which the surfaces / objects likely to be soiled with blood / body fluids can be 1) (associated with AIDS) or Hepatitis B Virus (HBV) or Hepatitis C Virus (HCV).
