Maintenance Solutions ce r vone **Instant Finish** Emulsifier

MP

Vinyl Tile Vinyl Asbestos Asphalt Tile* Linoleum

FOR USE ON:

Rubber Tile* Concrete Flagstone

Terrazzo Ceramic Tile

DESCRIPTION

A very aggressive floor finish emulsifier designed for easy removal of heavy build-ups and excessively burnished finishes. May be used as a no-scrub stripper or with a conventional floor machine and pad depending on the concentration of the product and the condition of the floor.

DIRECTIONS

- 1. Sweep or dust mop the floor to remove any debris.
- 2. Dilute Low Odor Floor Finish Remover from 1:3 to 1:14 (32oz. to 9oz./gal) with cold or warm water, depending on age and build-up of finish. Do not use hot water.
- 3. Apply liberally with a mop to an area small enough so as not to allow the product to dry. Be sure to completely cover floor to baseboards.
- 4. After 3 to 5 minutes, agitate the wet section with a mop or machine scrub. Pick up solution using a mop, wet vac or automatic scrubber.
- 5. Rinse thoroughly with clear water to remove residue as necessary.

NOTE: Asphalt tile and rubber flooring could be affected by stripping solutions in high concentrations with hot water. Always test floor before proceeding.

PRODUCT SPECIFICATIONS

Active Ingredients: Color: Odor: pH: Viscosity: Foam: Abrasives: **Phosphate Content:** Solubility:

 $30.0 \pm 0.5\%$ Yellow Sassafras 12.5 - 13.0 Water thin Low None None Complete with water

Emulsification: Detergency: **Rinsability**: Flash Point: **Biodegradability**: Storage/Stability: Weight per Gallon: Freeze / Thaw Stability:

Excellent Excellent Excellent 170°F (TCC) Complete 2 years 8.02 lbs./gal. Keep from freezing
