

Maintenance Solutions

Waterbased Wood **Floor Cleaner**

Flagstone Terrazzo

DESCRIPTION

Totally volatile cleaner designed to thoroughly clean and prepare wood floors, without leaving any residue. Excellent for use prior to applying waterborne coatings. Conventional floor cleaners leave a detergent residue that can cause adhesion and wear problems. This product is an ideal tack rag cleaner for removing soils and excess mop treatment.

DIRECTIONS

FOR DAILY MAINTENANCE BY TACKING: Add 12 to 16 ounces of concentrate, depending on soil conditions, to a mop bucket and fill with water. Soak 3 to 4 towels in solution until they are thoroughly wet. Wring towels out thoroughly and place one towel flat on floor. Place push broom in middle of towel, pulling front half of towel over top of the broom, and tack rag the floor. Repeat procedure as towel gets dirty. FOR DAILY MAINTENANCE BY DAMP MOPPING: Add 12 ounces of concentrate to mop bucket and fill with water. Wring out and damp mop floor in usual manner. Do not overwet or flood floor with product. FOR CLEANING NEWLY SCREENED FLOORS PRIOR TO FINISHING: Add 12 to 16 ounces of concentrate, depending on soil

conditions, to a mop bucket and fill with water. Soak 3 to 4 towels in solution until they are thoroughly wet. Follow directions above and tack the floor. This procedure must be repeated after each screening. After the final screening, the floor should be tack ragged a second time with fresh solution and clean towels prior to application of the finish.

PRODUCT SPECIFICATIONS

Color: Odor: pH: Viscosity: Foam: Abrasives: Solubility: Light blue Not objectionable 9.5 - 10.0 Water thin Low None Complete with water **Emulsification:** Flash Point: **Biodegradability:** Storage/Stability: Weight per Gallon: Freeze / Thaw Stability: Excellent 110°F (TCC) Complete 2 years 8.25 lbs./gal. Keep from freezing
