

Product Name:	Simple Green d Pro 3®		
Additional Names:	Simple Green d Pro 3® One-Step Germicidal Cleaner and Deodorant		
Manufacturer's Part Number:	30332 - 32 oz. Bottle		30301 - 1 gallon
	30355 - 55 gallon drum		30305 - 5 gallon container
Company:	Sunshine Makers, Inc. 15922 Pacific Coast Highway Huntington Beach, CA 92649 USA		
Telephone:	800-228-0709 • 562-795-6000	Fax:	562-592-3830
Emergency Phone:	Chem-Tel 24-Hour Emergency Service: 800-255-3924		
EPA Registration Number – 47371-37-56782	Canadian DIN Number – in registration process		

Emergency Overview: **WARNING.** Keep out of Reach of Children. This is a Green colored liquid with a pine added odor.

NFPA/HMIS Rating:
Health = 2 = moderate
Fire = 1 = slight
Reactivity and Special = 0 = minimal

Eye Contact:	Severe Irritant	Ingestion:	Severe Irritant and Harmful
Skin Contact:	Severe Irritant	Inhalation:	Irritant

<u>Ingredient</u>	<u>CAS Number</u>	<u>Percent Range</u>
Water	7732-18-5	≥ 90.87%
Ethoxylated Alcohol Mixture	Proprietary	≤ 2%
Didecyl dimethyl ammonium chloride	7173-51-5	1.88%
n-Alkyl (C14 50%, C12 40%, C16 10%) dimethyl benzyl ammonium chloride	68424-85-1	1.25%
Tetrasodium EDTA	64-02-8	≤ 1%
Ethanol	64-17-5	≤ 1%
Fragrance	Proprietary	≤ 1%
Colorant	Proprietary	≤ 1%

If inhaled:	Remove from area to fresh air. Get immediate medical attention. If not breathing, clear airway and start artificial respiration. If victim is having trouble breathing, give supplemental oxygen if available.
If on skin:	Wash with plenty of running water and soap if available for 15 minutes. Remove contaminated clothing and shoes. Get immediate medical attention. Wash clothing and decontaminate shoes before reuse.
If in eyes:	Immediately flush eyes with large amounts of running water for at least 15 minutes. Hold eyelids apart to ensure rinsing of the entire surface of the eye and lids with water. Get immediate medical attention.
If ingested:	If swallowed, immediately give 3-4 glasses of milk (in unavailable, give water.) Do not induce vomiting. If vomiting does occur, give fluids again. Get immediate medical attention. Have physician determine if patient's condition allows for induction of vomiting or evacuation of the stomach. Do not give anything by mouth to an unconscious or convulsing person. Note to Physician: Possible mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, as well as oxygen and measures to support breathing manually or mechanically may be needed.

Section 5: FIRE FIGHTING MEASURES

Flash Point:	> 200°F	Auto Ignition Temperature:	Not Known
Lower Explosion Limit:	Not known	Upper Explosion Limit:	Not Known
Suitable Extinguishing Media:	Use Dry chemical, CO ₂ , water spray or "alcohol" foam.		
Special Exposure Hazards:	Products of combustion are toxic.		
Special Protective Equipment:	Must wear NIOSH/MSHA approved self-containing breathing apparatus and protective clothing. Cool fire-exposed containers with water spray.		

Section 6: ACCIDENTAL RELEASE MEASURES

Personal Precautions: CAUTION! Irritant liquid. Wear appropriate protective equipment and NIOSH/MSHA approved respirator where mists or vapors of unknown concentrations may be generated. Self-contained breathing apparatus may be necessary for very large spills.

Environmental Precautions: Do not allow into open waterways and ground water systems.

Method for Clean Up: Remove all persons from spill area. Dike and contain spill with inert material (sand, earth, clay, etc.) and transfer the liquid and solid separately to containers for recovery or disposal.

Section 7: HANDLING AND STORAGE

Handling: Keep container tightly closed. Ensure adequate ventilation. Keep out of reach of children.

Storage: Maximum Storage Temperature is 140°F. Do not contaminate drinking water, food or feed by storage or disposal.

PESTICIDE STORAGE: Open dumping is prohibited. Store in original container in areas inaccessible to children.

Section 8: EXPOSURE CONTROLS / PERSONAL PROTECTION

Effects of Overexposure: No health effects information available for human exposure. Based on the available animal toxicity information for similar materials, it is anticipated that direct contact with this concentrate may possibly produce severe eye or skin irritation. Prolonged exposures may cause chemical burns with possible irreversible damage. Ingestion may cause burning pain in the mouth, throat and abdomen; swelling of the larynx; circulatory shock and/or convulsions. Mists or vapors of this concentrate may cause irritation of mucous membranes.

Exposure Controls:

Engineering:	In processes where mists or vapors may be generated, proper ventilation must be provided in accordance with good ventilation practices.
Eye Contact:	Where chemical splash goggles where there is potential for eye contact. Use safety glasses with side shields when there is no potential for eye contact.
Respiratory:	When necessary, NIOSH/MSHA jointly approved respirator is advised in the absence of proper environmental controls.
Skin Contact:	Rubber or neoprene, to prevent skin contact with concentrate.
Other	Eye wash; safety shower; protective clothing (long sleeves, coveralls, or other, as appropriate), when needed to prevent skin contact.

Section 9: PHYSICAL AND CHEMICAL PROPERTIES

Appearance:	Green Liquid	pH:	10.0 – 12.0
Odor:	Added Pine odor	VOC:	CARB Method 310 0.45%
Specific Gravity:	0.99 – 1.01	VOC composite Partial Pressure:	TBD

Section 10: STABILITY AND REACTIVITY

Stability:	Stable
Hazardous polymerization:	Will not occur.
Materials to Avoid:	Strong oxidizing or reducing agents
Hazardous Decomposition Products:	Thermal decomposition may produce toxic vapors/fumes of hydrogen chloride, amines, and other materials, and oxides of carbon and nitrogen.

Section 11: TOXICOLOGICAL INFORMATION

No toxicity information is available for this specific material. This toxicity information provided is for similar formulations.

Acute Toxicity:	Oral LD ₅₀ (rat)	1850 mg/kg
	Dermal LD ₅₀ (rabbit)	4430 mg/kg

** Eye irritation (Rabbit @ 1:64 dilution) Not an irritant

** Skin irritation (Rabbit @ 1:64 dilution) Not an irritant

Carcinogens: No ingredients are listed by OSHA, IARC, or NTP as known or suspected carcinogens.

Section 12: ECOLOGICAL INFORMATION

No Information Available

Section 13: DISPOSAL CONSIDERATIONS

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Nonrefillable containers. Do not reuse or refill this container. Clean containers promptly after emptying. Triple rinse as follows: Fill containers ¼ full with water and reclose the container. Agitate vigorously, and dispose of rinsate consistent with pesticide disposal instructions. Repeat two more times. Then offer for recycling if available or puncture and dispose in sanitary landfill or by other procedures approved by state and local authorities. Follow pesticide disposal instructions for rinsate. If not triple rinsed, these containers are acute hazardous wastes and must be disposed in accordance with local, state, and federal regulations.

Section 14: TRANSPORT INFORMATION

U.S. Department of Transportation (DOT) / Canadian TDG:	Not Regulated		
IMO / IDMG:	Not classified as Dangerous; Not regulated.		
ICAO/ IATA:	Not classified as Dangerous		
ADR/RID:	Not classified as Dangerous		
U.N. Number	Not Required	Proper Shipping Name:	Detergent Solution
Hazard Class:	Non-Hazardous	Marine Pollutant:	No

All components are listed on: TSCA, DSL and AICS Inventory.

No components listed under: Clean Air Act Section 112; Clean Water Act 307 & 311

RCRA Status: Not a hazardous waste

CERCLA Status : No components listed

CALIFORNIA – Proposition 65 – This material does not contain any component found by the State of California to be a cancer hazard.

MASSACHUSETTS – This material does not contain any components that are included in the Massachusetts Substance List that are present at or above reportable levels.

MICHIGAN – This material does not contain any components that are included in the Michigan Critical Materials List.

NEW JERSEY – No components are subject to the New Jersey Right to know act

PENNSYLVANIA – This material does not contain any components that are included in the Pennsylvania Hazardous Substance List that are present at or above reportable levels.

Toxic Substances List – Schedule 1 – CEPA (Canadian Environmental Protection Act)		NPRI Inventory
No	Yes	No

This product has been classified according to the hazard criteria of the CPR and the MSDS contains all the information required by Canada's Controlled Products Regulation.
